VI. DIRECTOR'S COMMENTS:

- a. Obtain Commission approval for simple intervention in FERC Docket No. EL 11-13. This is the Atlantic Wind FERC filing of Petition for Declaratory Order requesting that the Commission grant their request for incentive rate treatment and approve a return on equity for their investments in the Atlantic Wind Connection project.
- b. Staff to request Commission approval to intervene in the Eastern Shore Natural Gas Company (ESNG) tariff filing with the FERC-RP11-1670-000, General Section 4 Rate Case, to be effective 2/1/2011.

Staff seeks the Commission approval to proceed with its intervention since this is the only Commission meeting before the deadline for submissions to FERC by 5:00 p.m. Eastern Time on January 11, 2011. The Commission already has retained the services of FERC counsel to assist Staff on various FERC-related issues when the Commission authorizes Staff to participate in a particular FERC proceeding. At the Commission meeting on March 16, 2010, the Commission gave Staff authority to proceed and file submissions to FERC regarding the ESNG's application for a Certificate of Public Convenience and Necessity to construct an interconnection to Texas Eastern Transmission Company's interstate pipeline FERC Filing-CP10-70600. That case was approved by FERC.

Commission may consider going into executive session to obtain confidential legal advice concerning this matter.

- c. Delmarva presentation on Dynamic Pricing.
